Student Coordinating Board
DE LA SALLE LIPA - INTEGRATED SCHOOL

Magandang araw po sa ating lahat.

Sa ating mga iginagalang na tagapangasiwa ng De La Salle Lipa, sa mga kinatawan ng iba't ibang tanggapan, sa ating mga panauhin, sa mga class executives, at higit sa lahat, sa mga mag-aaral na ating pinaglilingkuran, isa pong mainit na pagbati sa inyong lahat.

Taos-puso akong nagpapasalamat sa inyong pagdalo at sa pagkakataong maiparating sa inyo ang kalagayan at direksyon ng Senior Student Coordinating Board.

With the trust and responsibility vested in my office, I stand before you today as President of the Integrated School Student Coordinating Board to deliver the first State of the SCB Address—not just for School Year 2026–2027, but in the history of De La Salle Lipa.

The first term of this school year has been an unforgettable chapter of work, milestones, and progress for the Board. We have taken on new initiatives, strengthened our organizational systems, and expanded our efforts to reach different communities within De La Salle Lipa. Our responsibility remains clear: to make sure that the students we represent see their trust reflected in the work we do.

Sinimulan natin ang school year noong June 29, 2026, bumalik tayo nang may mas pinalakas at pinagtibay na first-day event sa pamamagitan ng DSHOr o DLSL Senior High Orientation na pinamagatan nating TULAY, sa pag-asang magiging magandang alaala ito para sa bawat Grade 11 student sa pormal nilang pagtawid sa Senior High School. Through performances, interactive games, and the first-ever freshie walk, we welcomed our incoming Grade 11 students and introduced them to

the school's facilities, community, and vibrance of culture that not even the rain can drown.

On July 18, we officially launched the SSCB Website, a centralized platform that provides students with easier access to important organizational information, services, and Board updates. This milestone also marked the establishment of the first-ever official website of the Senior Student Coordinating Board, an initiative conceptualized and brought to life during our term to strengthen the way the Board communicates, operates, and serves the student body. Dito makikita ang official announcements, channels for submitting concerns, important Board documents, at maging ang attendance records ng ating mga elected SSCB officers. Mayroon din itong Campus Map to help new and incoming students familiarize themselves with the school's facilities and easily navigate the campus.

Mahalaga ang hakbang na ito dahil naniniwala tayo na dapat may pagkakataon ang mga mag-aaral na malaman at makita kung paano ginagampanan ng kanilang mga inihalal na student-leader ang mga responsibilidad na ipinagkatiwala sa kanila. We recognize that accountability begins with accessibility—na hindi dapat mahirap hanapin ang impormasyong may karapatan kayong malaman.

Noong August 6, inilunsad naman natin ang Class Spirit of the Year Award, or CSYA. This initiative encourages every class to demonstrate unity, camaraderie, active participation, and Lasallian spirit throughout the academic year. As part of this initiative, we launched the ManifeStation last August 7, a Class Vision Board Contest where each section presented their goals, aspirations, and collective vision for the school year. Nakaangkla ang mga ito sa ating institutional RISE values: Respect, Integrity, Stewardship, and Empathy. Sa pamamagitan ng kumpetisyong

ito, nabigyan ang bawat klase ng pagkakataong ipakita ang kanilang pagkamalikhain at ipahayag ang mga mithiin na nais nilang makamit para sa taong panuruan.

On August 11, we conducted AlmuSalle, a back-to-school initiative organized to welcome our community following several days of class suspensions due to typhoons. Through the distribution of free breakfast, students and other members of the community were given an opportunity to reconnect and start the day together. Kinabukasan, August 12, inilabas naman ang aniMOMENT 001: AlmuSalle, our brand of a one-minute mini-vlog documenting the highlights and experiences of our community during the activity.

Isa rin sa mga naging pangunahing point of agenda natin ngayong termino ang pagsusuri at pagpapalakas ng ating mga patakaran bilang isang student government. Noong August 12, isinagawa natin ang First Constitutional Reading, kung saan sinuri natin ang existing SSCB Constitution and By-Laws, tinalakay ang aming mga mungkahing pagbabago, at tinukoy ang mga probisyong nangangailangan ng paglilinaw o rebisyon.

Kung inyo pong sisiyasating mabuti, ang atin pong existing Constitution ay kung hindi man kulang sa detalye ay hindi na naaayon sa kung paanong ganap na tumatakbo ang SSCB. Through our operative Constitution, it establishes the SCB as an organization expected to serve but never sufficiently empowers it to govern. It lacks coherent constitutional architecture, a clear deliberation of our functions, authority over our own resources and due privileges, and the express power to advocate for policies that are of, by, and for the students. On that same day, the Board submitted our Constitutional Review Report to the Senior High School

Student Activities Officer, containing our findings and recommendations gathered during the said review.

Mula August 12 hanggang October 29, ipinagpatuloy ng SSCB bilang una nitong Constitutional Commission ang mas malawakang pagrerebisa at pagbuo ng ating Constitution and By-Laws. This included a thorough examination of existing provisions, reconfiguration of organizational responsibilities, and development of new articles, standard operating procedures, and accountability systems to better address the needs of the Board and the student body. As part of our commitment to transparency, we also released a Constitutional Revision announcement on October 27 to keep students informed of the steps taken and the current status of the revision process.

Sinundan ito ng Second Constitutional Reading noong October 30 hanggang 31, kung saan nagsagawa ng overnight deliberation ang SSCB, ang Constitutional Commission, or ConCom. Throughout the two-day process, members carefully discussed and directly revised the proposed articles and provisions. Pagsapit ng November 4, inanunsyo natin ang approval ng ConCom sa lahat ng constitutional articles for public presentation. Naging mahalagang hakbang ito bago ilahad ang mga mungkahing pagbabago sa student body at bigyan ang mga mag-aaral ng pagkakataong makilahok sa karagdagang konsultasyon. Sa kabuuan, layunin ng buong prosesong ito na magkaroon ng mas malinaw na mga patakaran, mas matibay na accountability, at mas organisadong pamamalakad sa ating student government.

Bukod sa mga gawaing may kinalaman sa pagpapaunlad ng organisasyon, noong August 30, nagsagawa ang Grade 12 SSCB representatives ng ocular visits sa mga

posibleng venue para sa Grade 12 Graduation Ball. Bahagi ito ng paghahanda para sa isa sa mga pinakahihintay na milestone ng ating graduating students.

Pagsapit ng October, nagsagawa rin tayo ng mga inisyatibong nagbibigay-pagkilala sa mga taong mahalagang bahagi ng ating komunidad. Noong October 2, inilunsad ang Mentors' Day Padlet, isang online platform kung saan maaaring magbahagi ang mga mag-aaral ng kanilang mga mensahe ng sa kanilang mga guro. Saka ito sinundan, katuwang ang iba't ibang opisina sa La Salle, ng mismong Mentors' Day Celebration sa SENTRUM noong October 5.

On October 8, we held the Grade 11 Career Day, a career-oriented activity that brought students together through interactive games, collaborative challenges, career talks, and creative showcases. Nakatulong ang programang ito upang mas mapalawak ang kanilang kaalaman tungkol sa iba't ibang career opportunities habang nagkakaroon din sila ng pagkakataong makipag-ugnayan at makipagtulungan sa kanilang mga kapwa mag-aaral. Bilang pagdodokumento sa mga naging karanasan at mahahalagang bahagi ng programa, inilabas noong October 10 ang aniMOMENT 003: Grade 11 Career Day.

Samantala, noong October 9, inilabas din natin ang aniMOMENT 002: Lasallian Peace Formation. This one-minute mini-vlog documented the students' experiences, participation, and reflections during the formation. Binigyang-diin nito ang kahalagahan ng kapayapaan, pagkakaisa, at pananagutang panlipunan sa ating komunidad, maging ang mismong kinahinatnan ng nasabing formation sa pangunguna ng SHS Student Activities Office at Peace, Justice, and Social Action Committee. Ito ay bilang pagtalima rin sa iniatas na tungkulin sa SSCB bilang katulong sa nasabing proyekto.

Sa ganitong paraan, mas napalalawak natin ang naaabot ng ating mga programa at mas napalalapit ang SSCB sa mga mag-aaral sa pamamagitan ng pagbabahagi ng kanilang mga indibidwal na kuwento at karanasan. This is a step forward, toward a more connected student leadership and student community. Atin pong ipagpapatuloy ang pagbuo ng mas malalim na koneksyon sa mga susunod na aktibidad.

Hindi lamang sa mga programang direktang pinangungunahan ng SSCB nakatuon ang ating paglilingkod. Nakibahagi rin tayo sa iba't ibang school-wide projects and activities in collaboration with the different offices and organizations of De La Salle Lipa.

Noong August 4, naging bahagi tayo ng "Choose Respect. Reject Violence." Zero Tolerance Campaign, a campus-wide initiative promoting safety, respect, and the prevention of all forms of violence. Organized in partnership with the Senior High School Student Activities Office, the campaign brought together student leaders, including the director of ISSESO, for discussions and learning activities. We also covered the importance of our RISE values, responsible digital citizenship, school security protocols, violence prevention, and peaceful conflict resolution. Naging bahagi rin ng programa ang isang talk led by the Chief of Police, which further emphasized the importance of maintaining a safe and respectful school environment. Sa pamamagitan ng inisyatibang ito, mas napalawak ang ating kaalaman at pag-unawa sa responsibilidad ng bawat isa sa pagpapanatili ng isang ligtas na paaralan.

Noong September 28, nagsilbi naman tayong facilitators sa Lasallian Volunpeers Kick-Off. We led the team-building games and collaborative exercises designed to

strengthen camaraderie, promote unity, and build stronger connections among the organization's members.

Kasunod nito, noong September 30, naging bahagi ang SSCB ng pagsasagawa ng Club Onboarding kasama ang Senior High School Student Activities Office for all officially recognized Senior High School clubs. Through the orientation, student leaders were introduced to organizational guidelines, their expected responsibilities, and the procedures they must follow in managing their respective organizations.

Noon nga pong October 3, sinuportahan din natin ang Lasallian Peace Formation in celebration of Peace Month. Pinangunahan ito ng Peace, Justice, and Social Action Committee, kung saan nagsama-sama ang komunidad sa isang symbolic umbrella formation representing unity, solidarity, and social responsibility. Matapos ang aktibidad, matagumpay nating naipagkaloob ang mga ginamit na payong sa mga partner community ng CIO upang maipagpatuloy ang layunin ng programa sa labas ng paaralan.

Noong October 5, ipagdiwang natin ang Lasallian Mentors' Day in partnership with the Student Government and the Human Resource Department. The celebration featured a Thanksgiving Mass, interactive activities, games, and performances in honor of our Lasallian Partners and their continued guidance and service to the community. Naging pagkakataon ito para maipahayag ng mga mag-aaral ang kanilang pasasalamat sa mga taong patuloy na nagbibigay-suporta at direksyon sa kanilang pag-aaral at paghubog bilang mga Lasalyano.

At noong October 8, naging bahagi rin tayo ng Ad Hoc Committee for the Visit of Brother Super General Armin A. Luistro, FSC, para sa isang welcoming activity

bilang paggunita sa kanyang pagbabalik sa De La Salle Lipa. Through this activity, we helped honor his visit and recognize the continued importance of the Lasallian mission, particularly our commitment to faith, service, and communion.

Sa dami ng mga programang ating naisakatuparan at sinuportahan, malinaw na naging aktibo ang SSCB sa iba't ibang bahagi ng ating paaralan. Ngunit sa likod ng bawat aktibidad na nakikita ng ating komunidad, mayroon ding mga gawaing kailangang pagtuunan ng pansin upang matiyak na maayos na tumatakbo ang ating organisasyon. Kaya naman throughout the first term, the Board submitted several formal requests, raised concerns, and communicated student needs to the appropriate offices. These efforts reflect our responsibility to ensure that student concerns are heard and brought forward to the people and offices capable of addressing them.

Nagsimula ang mga ito noong July 22 when we formally raised a concern with the Student Formation Office regarding the designation of SFO point persons and the clarification of their respective roles in relation to the SCB district representatives.

On July 30, we submitted a request to the Director of ISSESO for authorized access to and borrowing of the SCB Office key for official Board functions throughout this school year.

On August 11, we submitted a formal request to the General Services Office for the renovation and improvement of the SCB Office. This included the proposed designation of an adjacent room as a shared stockroom, as well as the provision of necessary office facilities and equipment. Dito, patuloy nating isinulong ang pagkakaroon ng mas maayos, functional, at organisadong workspace na susuporta sa mga pangangailangan at pang-araw-araw na operasyon ng ating organisasyon.

Student Coordinating Board
DE LA SALLE LIPA - INTEGRATED SCHOOL

On August 18, we addressed a request to the SHS Student Activities Officer regarding the available budget allocation of the SCB for School Year 2026-2027.

On August 29, we also requested a 1 hour dismissal period allotment from the SHS Assistant Principal to allow Grade 11 and Grade 12 students to complete their ManifeStation Class Vision Board outputs before the September 4 deadline. This request aimed to provide students with sufficient time to finalize their respective outputs.

Moving forward, on September 3, we formally requested the endorsement of the Lasallian Peace Formation to Homeroom Advisers. Addressed to the Integrated School Principal, through the Vice Chancellor for Mission and Student Services Director, this request sought to encourage wider student participation and support for the activity.

One of the more significant instances of our student advocacy took place on September 21, when we submitted a formal letter to the Integrated School Principal and Associate Principal for Academics outlining Grade 12 students' concerns and recommendations regarding the 2026 Intramurals. These included matters concerning the Lip Sync Challenge, jersey preparation, sports lineup, and other arrangements affecting the graduating batch.

The following day, September 22, we submitted another formal communication documenting the administrative responses and decisions regarding these concerns. Among the matters addressed were the cancellation of the Lip Sync Contest,

reinstatement of Track and Field, clarification of jersey requirements, and proposed improvements to coordination and preparation.

These exchanges showed the importance of having a student body that speaks up when concerns arise. Mahalaga na may kinatawang handang magsalita at magtanong, especially when decisions directly affect students.

Moreover, on October 6, we also requested the endorsement of the Grade 11 Career Day guidelines and activity details to the Grade 11 Homeroom Advisers through the SHS Assistant Principal. This was intended to ensure that the necessary information would reach the advisers and students ahead of the activity.

Lastly, on October 8, we submitted a request to the SHS Integrated School Principal for general cleaning and sanitation across all Senior High School classrooms, in response to rising student health concerns. The request was approved by the administration on the same day, marking an important step in addressing the concerns raised by our students.

Beyond our direct engagements with different school offices, student representation also means having a seat at the table where institutional policies, programs, and decisions are discussed. Through our membership in various committees and councils, we are given the opportunity to bring student perspectives into these conversations and take part in decisions that directly affect our community.

As a member of the Peace, Justice, and Social Action Committee, I participated in discussions on advocacy programs, particularly voter education, and the conceptualization of the Lasallian Peace Formation. Through its monthly meetings, I

was able to bring the student perspective into conversations on peace, social awareness, and responsible citizenship.

Meanwhile, our Grade 12 Vice President represents the SSCB in the Gender and Development Extended Committee. From July 1 to October 19, the committee held four meetings covering institutional efforts on gender sensitivity, inclusivity, and gender-responsive programs.

Among the matters discussed were proposed adjustments to admission procedures concerning gender and sex assigned at birth, as well as a calendar of gender-related advocacies. The SSCB also co-moved for Gender Sensitivity Trainings following our report on the current state of gender sensitivity among our Lasallian Partners. These trainings have since commenced with non-teaching personnel.

We also pushed for a clearer communication channel between students and the GAD Office so gender-related concerns can be raised directly. Other discussions addressed improvements to De La Salle Lipa's PWD accessibility, including ramps, restrooms, priority lanes, and parking spaces, alongside proposed facilities such as a child-minding center, additional sanitary napkin stations, and universal restrooms.

These discussions reinforce the importance of making inclusivity visible in our institution's policies, facilities, and everyday practices.

As IS-SCB President, I also hold a seat in the Board of Inquiry, Appraisal and Resolution, or BIAR, which deliberates on serious disciplinary cases that may warrant dismissal or expulsion. The Board investigates these cases and submits its findings and recommendations to the School Principal. My participation ensures that

the student perspective is represented in discussions that require fairness and careful consideration.

I likewise serve in the Child Protection Committee, which oversees policies and mechanisms protecting learners from abuse, violence, discrimination, exploitation, and bullying. Through this committee, student welfare remains part of the discussions surrounding the policies that shape our school environment.

I am also part of the Canteen Committee, which addresses concerns involving food sanitation, product quality, affordability, and overall canteen operations. The committee met on August 6 and October 23, providing opportunities for us to raise concerns about students' daily dining experience and bring their feedback to the appropriate offices.

Lastly, as IS-SCB President, I represent the student body in the Assistant Vice Chancellor for Academics – Integrated School Extended Council. Meeting monthly, the council serves as a platform for discussions on academic matters, institutional programs, policies, and stakeholder concerns across the Integrated School.

During these meetings, I presented the Board's accomplishments, ongoing initiatives, organizational developments, and plans for the academic year. Discussions also covered SHS Intramurals, academic offerings and new elective options for the second term, and emergency preparedness measures, including the Active Shooter Drill.

Other agenda items included the Lasallian Peace Formation, Grade 11 Career Day, and Anti-Political Dynasty Campaign. Another key discussion was the proposed

adoption of a standardized AI disclosure policy across campus departments, academic units, and student design competitions. This aims to establish clearer expectations and promote transparency in the use of artificial intelligence across different academic and institutional settings.

But beyond the programs we organize and the meetings we attend, there is one responsibility that must remain at the center of everything we do: listening to our students. Dahil hindi naman natin tunay na maipaglalaban ang kapakanan ng mga mag-aaral kung hindi natin naiintindihan ang kanilang pinagdadaanan. Hindi natin masasabi na we represent them kung hindi natin binibigyan ng atensyon ang kanilang mga pangangailangan. From the very beginning of this school year, one of our priorities as a board has been to make student representation more accessible. Kaya naman, we have made deliberate efforts to establish channels through which students can raise concerns, communicate their circumstances, and bring matters requiring attention to the Board.

On June 29, 2026, we received a formal submission through the Student Concern Form from the G12-02 Class President regarding the condition of their classroom. Among the concerns raised were inadequate cooling from the two air-conditioning units, a malfunctioning television, and a defective electric fan. Upon receiving the report, we coordinated with the Maintenance Office, which led to the resolution of these concerns.

We also recognize that student welfare extends beyond concerns within the classroom. Lalo na sa panahon ng kalamidad, kailangang alam natin kung sinu-sino ang maaaring nangangailangan ng tulong at kung anong uri ng assistance ang maaari

nating maiparating. This means taking the initiative to understand students' circumstances even before they formally ask for help.

On July 10, we conducted the Student Welfare Survey in response to Typhoon Inday. The survey sought to identify Senior High School students affected by the typhoon and determine their needs for emergency assistance, including access to basic necessities, temporary shelter, and other forms of support.

When Tropical Storm Maymay followed, we once again mobilized our student welfare initiatives. On August 6, in partnership with the CIO, we conducted another Student Welfare Survey, with particular attention to students residing in boarding houses and dormitories who may have been affected by the storm. On the same day, we also administered a separate Student Dormitory Survey through our class officers to consolidate information on students living in these accommodations.

These efforts highlighted an important reality: students experience emergencies differently. Kaya mahalagang mayroon tayong maaasahan at napapanahong impormasyon tungkol sa kanilang kalagayan.

At bukod sa mga disaster-related concerns, The SSCB remains concerned about circumstances that may compromise the well-being of our constituents. In line wih this, on August 19, we conducted the Student Safety Survey to assess the safety and security concerns of Senior High School students following recent incidents across school communities. We consolidated the responses and brought them to the attention of the Integrated School Principal, providing the administration with a clearer account of the concerns raised by the student body.

Lastly, on October 4, we circulated a survey on student interest and attendance for the upcoming SEC × DLSL Program in celebration of Investor Protection Week this November. The survey aimed to gauge student participation in a program that will introduce learners to personal finance, traditional securities, government investments, and the mandates and compliance functions of the Securities and Exchange Commission. Through this, we sought to align the program's preparations with the interests and anticipated participation of our student community.

Alongside these initiatives, we have maintained dedicated communication groups with our class executives since the beginning of the school year. These serve as established communication channels between the SSCB and our class representatives, allowing for more immediate coordination, the timely transmission of student concerns, and the dissemination of relevant information. Our class executives serve as the link between their respective sections and the Board, giving us a more direct understanding of concerns that may otherwise go unreported. We therefore consider their active involvement essential to maintaining an informed and responsive student government.

Further strengthening this system, on October 27, we announced the reconvening of the Council of Student Concerns and Actions, or COSCA. Through this council, class presidents and their representatives will once again be provided with a formal platform to consolidate concerns from their respective sections, identify recurring issues, and raise matters requiring the attention of the SSCB and the appropriate school offices.

With these initiatives in place, we want to assure our constituents that the SSCB remains committed to making itself more accessible and responsive. Mas marami na

tayong paraan para makinig, mas malinaw na ang mga channels kung saan maaaring idulog ang inyong mga concern, at mas pinapalakas natin ang ugnayan sa pagitan ng Board at ng ating mga class executives. We encourage every student to make use of these channels and never hesitate to bring forward matters that deserve attention. Your concerns give us a better understanding of the community we represent, and every report gives us an opportunity to act where we can.

The Board's doors remain open, and we intend to keep them that way.

As a Board, we also make it a point to examine the work we put forward. Every activity we organize comes with a responsibility to know whether it served its purpose, how our students received it, and what we could have done better. Hindi porket naisagawa natin ang isang programa ay masasabi na nating naging matagumpay na ito. We need to look at the results, listen to the feedback, and be honest about the areas where we still have room to improve.

This is reflected in the evaluation reports and formal submissions we have prepared throughout the first term.

On August 9, 2026, the SSCB submitted a formal Student Dormitory Report to the Vice Chancellor for Mission, detailing our monitoring efforts and student welfare assessment amid the typhoons that affected Batangas Province from August 5 to 9. Through our coordination with Class Presidents and the administration of the Student Welfare Survey, we identified 108 dormitory residents and gathered 68 responses concerning their safety, living conditions, and immediate needs. Based on the responses received, no student required evacuation, rescue, or immediate school

assistance. The consolidated findings were then forwarded to the concerned institutional offices for reference and appropriate intervention.

We also evaluated how our students received the activities we organized. On August 17, we consolidated the evaluation results of DSHOr, which gathered 170 responses and received an overall rating of 4.53 out of 5.00. On the same day, we also completed the evaluation report for our Zero Tolerance Campaign. which gathered 500 responses and received an overall rating of 4.64 out of 5.00.

Both evaluations showed positive results and encouraging feedback from our students. Pero bukod doon, mahalaga rin sa amin ang mga comments and recommendations na kanilang ibinahagi—which will be considered in planning our future activities and initiatives.

This brings us to another aspect of our work: our leadership engagements.

Our involvement in the wider Lasallian community began as early as June 16, 2026, when the SSCB participated in the video shoot for the official launch of the RISE Values:

We also participated in LEAD & Rise on August 22, a leadership formation program organized by our Senior High School Student Activities Officer in collaboration with the Student Formation Office and the Council of Student Organizations. Through the sessions facilitated by invited resource speakers and discussions on the RISE Values, we were given the opportunity to revisit what responsible leadership should look like in practice, and how our Lasallian values of faith, service, and communion in mission should be reflected in the way we serve.

We also participated in DISARM: A Virtual Peace Education and Safe School Culture Lab on September 7, which centered on empathy, constructive communication, and conflict resolution. As student leaders, this was another way for us to strengthen our role in protecting student welfare and promoting a school culture where safety, respect, and understanding are always upheld.

Last September, our engagement extended beyond the school community and onto a much wider Lasallian platform.

From September 2 to 6, I had the opportunity to represent De La Salle Lipa at the Lasallian Youth Congress 2026, held at the Krisalis Benilde Retreat House in Tagaytay City. The Congress brought together student leaders and youth representatives from 16 Lasallian schools across Luzon, Visayas, and Mindanao. Kasama ko rin ang mga kinatawan mula sa Student Government, LAVOXA, at Council of Student Organizations.

At its core, the Congress sought to strengthen the voice of the Lasallian youth and recognize our role in responding to the issues affecting our generation. Through the seven-point Lasallian Youth Agenda (LAYA), we engaged with advocacies on Life and Mental Well-being, Academic Experience and Equity, Social Justice and Civic Engagement, Authentic Inclusivity, Leaven in the Peripheries, Living Green, and Ethical E-Citizenship. These are advocacies we already put into practice through our work in the SSCB, but the Congress allowed us to bring them to a wider platform and connect with fellow youth leaders pursuing the same causes.

Following the Congress, I also became a member of the Young Leaders Circle, extending DLSL's participation in the wider Lasallian youth network beyond the five-day gathering. This opens opportunities to collaborate with fellow student leaders and contribute to initiatives that bring the advocacies we discussed into more concrete action. In fact, we are already looking into exciting projects and possible collaborations with fellow members, some of which we hope to bring closer to our own school community. Abangan natin ang mga susunod na hakbang as these initiatives take shape.

A lot happens before an activity finally takes place. May mga kailangang pag-usapan, ayusin, pagdesisyunan, at balikan. And throughout the school year, our meetings have been where much of that work happens.

We began as early as May 20, 2026, with our initial activity planning, where we mapped out our proposed initiatives from May through December and established our preliminary activity calendar. This was followed by the delegation of our Grade 12 representatives to the three committees: Creatives, Archives and Logistics, and Communications, on May 22, allowing us to establish our internal workstreams and distribute responsibilities accordingly.

We also conducted meetings dedicated to the operational preparations of specific activities. On May 29, we discussed the arrangements for the Graduation Ball of School Year 2025-2026. On May 31, we initiated the planning for DSHOr: TULAY, followed by consultations with our Acting SCB Adviser, Ms. Jocelyn Rosos, on June 1, particularly concerning the welcoming activity and COMELEC screening. These discussions continued through our June 23 operations manual

preparation and June 26 dry run preparations for DSHOr, where we addressed the necessary implementation procedures and operational requirements.

In July, we also began coordinating with SHS COMELEC on the preparations for the Grade 11 SCB Elections, particularly the Tapatan and Meeting de Avance. During this period, we also started preparations for the Lasallian Volunpeers Kick-Off and other upcoming initiatives.

By August, our meetings became more focused on the operationalization of our major projects and the alignment of our committees with their respective deliverables. On August 5, we reviewed the usher preparations for the Lasallian Peace Formation, and the activities for Peace Month, alongside our proposed August to November initiatives. We also discussed the program flow for the SHS SCB Orientation and, on August 9, consolidated our proposed major and minor projects for the academic year.

Other internal discussions covered our proposed AlmuSalle on August 11, Teachers' Day preparations on August 18, and the delegation of responsibilities for the Lasallian Volunpeers Kick-Off, for which we began preparations on August 25.

In September, our meetings continued to cover both project monitoring and preparations for upcoming initiatives. During our September 3, 4, and 8 meetings, we monitored the Lasallian Peace Formation's deadlines and deliverables, finalized committee assignments, discussed the proposed Grade 11 Cluster Day, and reviewed progress updates on Lasallian Mentors' Day.

Student Coordinating Board
DE LA SALLE LIPA - INTEGRATED SCHOOL

On September 25, we finalized the preparations for the Lasallian Volunpeers Kick-Off and discussed the Grade 11 Career Day, including its program flow, committee assignments, and logistical requirements. This was followed by meetings on October 4 and 6, where we worked on the final preparations for Lasallian Mentors' Day and further discussed the requirements for Career Day.

We also maintained regular consultations with Ms. Jo. During our October 15 meeting, we discussed updates on the Grade 12 GradBall, Kindness Week, the Constitution and By-Laws review, and COSCA. On October 18, we revisited our October to December activity calendar, assessed proposed initiatives and possible scheduling conflicts, and discussed the remaining preparations for the Constitution Reading, alongside committee assignments and other operational concerns.

For our external coordination, we maintained regular engagements with class officers, and other offices.

In August, we met with class officers on August 19 to discuss the ManifeStation contest and reiterate the requirements and deadlines for the Lasallian Peace Formation.

We also conducted several coordination meetings with the Student Government for Lasallian Mentors' Day. This began with our initial discussion on August 18, followed by a face-to-face progress meeting on September 14 and finalization meetings on October 3 and 4. The Human Resource Department also joined the coordination on October 2 and 3 to discuss the corresponding manpower requirements.

On September 4, we again met with class officers to address concerns regarding the ManifeStation contest, particularly the submission deadline. On September 15, we had a meeting with the Council of Student Organizations regarding the Adhikang Lasalyano initiative. On September 22, we also met with school administrators concerning the Grade 12 Intramurals and that same day, we coordinated with NEXUS to discuss possible collaboration.

Our meetings also included dedicated checkpoints where we assessed the implementation of completed activities and identified areas for improvement. On July 27, we revisited DSHOr. While last August 12, we evaluated last year's Graduation Ball and reflected on the experience as ushers and usherettes. On October 7, we conducted a broader assessment of our August to October projects and activities, identifying implementation challenges and formulating recommendations for succeeding initiatives. Most recently, on November 6, we held a Career Day checkpoint to identify improvements in planning and coordination.

Lastly, a significant part of my responsibility as IS-SCB President is maintaining direct coordination across Grade School, Junior High School, and Senior High School. Since my office covers all three communities, I also have to remain involved in the developments of our GS and JHS levels.

On September 12, we held our Integrated School Executive Convention, bringing together executive officers from the different communities. During this meeting, we heard their respective accomplishments and progress reports, reviewed projects and initiatives already implemented within their communities, discussed ongoing concerns, and went through their upcoming plans and priorities.

Additionally, I also make it a point to maintain direct communication with our JHS and GS officers. I check in on their respective concerns, activities, and ongoing initiatives, so that our coordination does not end with the submission of reports. This includes more focused meetings with our JHS SCB, particularly our September 19 coordination on the Lasallian Peace Formation and our October 27 and 28 discussions on Adhikang Lasalyano.

Of course, all these meetings and responsibilities also require one thing from every officer: presence. In terms of attendance, throughout the term, the SSCB recorded an overall attendance rate of 90.28%, with 7.29% excused absences and 2.43% unexcused absences.

For our committee meetings, we recorded an even higher attendance rate of 97.83%, with 2.17% excused absences and 0% unexcused absences.

In the interest of transparency, our detailed attendance records are also accessible through our official website, where students can review the Board's attendance and accountability records.

For our first term, the Board recorded an estimated total expenditure of 55,000 from June to October, covering the various activities, programs, and operational needs of the SSCB. We remain committed to ensuring that every resource entrusted to us is spent responsibly, with transparency and accountability at the forefront of our financial decisions.

Of course, hindi rin naging smooth ang lahat throughout the first term. Along the way, we encountered circumstances that affected our timelines, coordination, and

the implementation of some of our initiatives. Allow me to walk you through the major challenges we experienced.

First, weather-related disruptions and class suspensions. Heavy rainfall during DSHOr forced us to cancel the planned campus tour. The Lead and Rise Program was also rescheduled several times due to class suspensions. Similarly, the ManifeStation Class Vision Board Making had an extended implementation period because of class suspensions and security concerns.

May mga pagkakataon din when coordination with other offices and organizing bodies affected the implementation of our initiatives. During typhoon-related disruptions, for example, we encountered difficulties communicating with the offices and response teams involved in providing assistance to affected dormers and students.

Third, internal operational and resource limitations. On our end, scheduling conflicts affected the implementation of several proposed initiatives, including DEAR Lasallians and Lakan at Lakambini. With multiple activities already lined up from SAO and from the School itself, we also had to consider the possibility of overloading our students.

Another continuing concern was our limited workspace. Since the SCB room also serves as our primary venue for meetings, consultations, and preparation, having limited space where the Grade School, Junior High School, and Senior High School are all co-occupants, made it difficult to accommodate officers, especially during larger meetings and collective work sessions.

Fourth, overlapping initiatives and institutional alignment. Some of our proposed projects also had to be reconsidered because similar initiatives were already being addressed by other institutional bodies. For instance, DEAR Lasallians, which was envisioned as a capacity-building seminar covering disaster preparedness, humanitarian service, voter education, emergency response, and hands-on training in basic first aid, CPR, and flood safety, was eventually superseded by the administration's Zero Tolerance Campaign. In these instances, we had to reassess our proposed initiatives and identify how our efforts could complement, rather than duplicate, existing institutional programs.

Lastly, student engagement and feedback collection. We continue to experience low engagement with our Student Concern Form, as some students still prefer raising their concerns directly to SCB officers. We also received limited responses to our post-activity evaluation forms, particularly for DSHOr and Grade 11 Career Day. Dahil dito, naging limitado rin ang feedback available to us when assessing how our activities were received.

These challenges have shown us where we need to improve and, more importantly, where we need to focus our efforts moving forward. For the second term, we have set several priorities that we intend to carry through.

One of our immediate priorities is the upcoming plebiscite on the proposed SSCB Constitution. Through this, we aim to give students the opportunity to take part in shaping the policies and framework that will guide the Board and future student leaders.

For the second term, our first priority is to further strengthen our channels for student representation through the Council of Student Concerns and Actions, or COSCA. Ngayong established na ang COSCA, we intend to make its convening more consistent. Kasabay nito, our Student Concern Form will remain open and accessible to everyone. We want to make sure that every student, whether through their class representatives or directly through the form, has a means to bring their concerns to the Board.

We will also implement Council Class Connect, or CCC, which will allow us to engage randomly selected students from different sections through brief conversations about their actual school experiences. Sa ganitong paraan, mas maririnig natin yung mga students who may not always have the opportunity to speak during formal consultations.

Beyond representation, we have batch-wide initiatives planned to strengthen camaraderie across sections. With Christmas approaching, we are also preparing activities that encourage generosity, appreciation, and student participation.

Come February, we also have something bigger planned for EDSA. We want to make this year's commemoration more visible across Senior High School, with initiatives that bring history, political awareness, and student expression into the forefront.

We also look forward to working with the Young Leaders Circle on collaborative initiatives that will connect our students with fellow youth leaders and organizations nationwide.

In terms of community engagement, iLAYA returns for its second run! In coordination with the Community Involvement Office, we have identified our partner community for this year's initiative and are preparing another round of meaningful engagements and service activities.

As we approach the end of the school year, we also have important milestones ahead. Through Pagkilala 2027, we will recognize the incoming leadership, facilitate the transition of responsibilities, and present our final State of Community Progress, or SCOPE, as we conclude our term. For our Grade 11 students, we are preparing a batch-wide celebration, while preparations for the Grade 12 Graduation Ball have been underway since August.

As we bring this address to a close, as we move into the second term, we carry with us the lessons of our first: the programs we have implemented, the concerns we have brought forward, the partnerships we have strengthened, and the opportunities we have created for student participation. These efforts have given us a foundation to build on, and we intend to carry that momentum into the second term. Marami pa tayong kailangang gawin, at marami pa kaming kailangang patunayan.

To our school administrators, thank you for giving student leadership the space to participate and to work alongside you. To our class officers and fellow student leaders, thank you for being our partners in service. And to the 1,903 students whose voices we have been elected to represent, whose welfare we are expected to uphold, and whose trust we must continually earn, we hope that through our work so far, you have seen a Board that is willing to listen and stand with you.

With much of the school year still ahead of us, we welcome your scrutiny. Continue to hold us to the standards we have set, challenge us to follow through on our commitments, and never hesitate to call on us when we fall short. Huwag kayong mag-atubiling maningil. Expect more from this Board. Demand more from us. And allow us to prove that your trust was placed in the right hands.

The best of this Board is yet to come.

Thank you and good morning.
